

Improved Procedure for Visitor Access

First National Corporate Security in conjunction with Securitas is pleased to announce an improved procedure for visitor access. A Visitor Management website, via Securitas (www.mysecuremanager.com), will enable your guests an easy transition through the check-in process. You will be able to pre-load their data and schedule their arrival to your site, drastically cutting the time involved for your visitors.

Beginning **Tuesday November 15th**, you can contact the Security Desk in your building to get signed up. They will grant you a login and you will be sent a temporary password. If you have any questions regarding this process, please contact your Security Desk and they will be happy to assist you.
